

RITA MELO-REUSS

ARCHITECTURAL DESIGNER, MANASC ISAAC ARCHITECTS. PARTNER

Rita joined Manasc Isaac Architects with a Bachelor of Architecture and Urban Planning from the Catholic University of Goiás, Goiânia, Brazil, and with numerous years of experience in Brazil as an Architect, and with a Building Technology degree. Among Rita's many talents is her extensive experience in supervising and inspecting construction sites.

Rita is a dedicated Project Architect and Manager with 20 years of experience in architecture and construction. She possesses the skills, knowledge and competencies that are must-haves for a successful project manager. Rita also holds a good business sense with the ability to positively influence others to keep with project schedules and deadlines. Overall, Rita brings a balance of both real-world experience and training to any working project.

Rita is responsible for the successful planning, monitoring and execution of Manasc Isaac projects and she will ensure that each phase of the project will be on time and on schedule. Rita is also a Planning Design Programmer for Manasc Isaac projects leading the client through the process of identifying and articulating what the project's objectives and constraints are. She establishes design objectives and a list of needs, wants, and priorities resulting in a detailed work plan that will guide the Planning and Design process.
